# Products and services

As an approved supplier for many municipal roll outs with our vast collective engineering and manufacturing knowledge, we are delighted to partner with you on your projects. We have included the following overview of our product and service portfolio to streamline your selection process.

## Concrete Small Cells:

Our manufacturing process provides ultimate strength, durability, and beauty.

- Virtually maintenance-free, natural stone finish
- Conforms to applicable sections of ACI, AASHTO, ASTM, ASCE, TIA and IBC standards
- Tailored to meet required aesthetics
- Embedded and baseplated designs available
- Multiple shapes available in tapered and non-tapered
- Decorative options available
- Anti-graffiti protection provided with Amershield

# Design collaboration

When it comes to a new project, we act as an extension of your team to support a quick and efficient deployment. Let our experts help you navigate this process and create your optimal design.

Presetting standards helps streamline your entire process. Not only will it make approvals simpler, you will have faster turnaround times for quotes and purchase orders once you are ready to move forward with your project.

## Our process:

- We work with you and the jurisdiction to set design standards to meet each parties' requirements.
- Based on these standards, we create jurisdictionally specific drawings to ease your permitting process.
- PE stamped calculations and drawings are available as needed.

## Did you know?

Our poles are found in 49 out of 50 states! We have the expertise to help no matter where your poles are going.

# Quotations

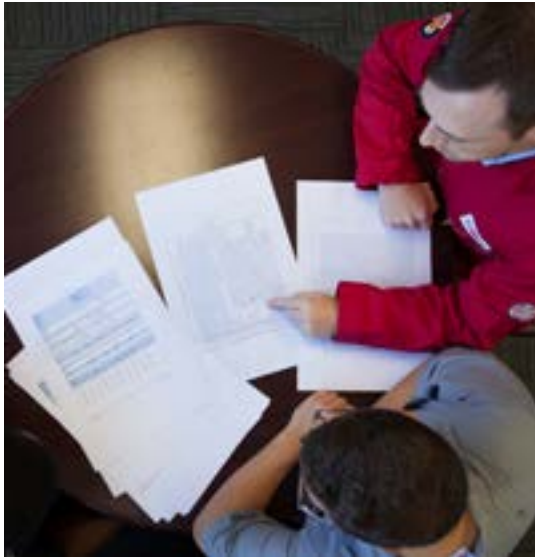

Now that we have worked together to set the standards and finalize designs, obtaining a quote is simple. Please provide the following in your quote request:

- Project name
- City/state
- Site IDs
- Quantities requested
- Approved drawing and/or construction documents

Submit quote requests to:

[Ameron@arcosa.com](mailto:Ameron@arcosa.com)

By partnering with us during the design phase, **we are able to turnaround most quotes in 48 hours.**

## Helpful tips

- Highlighting minor changes can expedite review process.
- Steel Quick Select Guide provides pre-designed structures for expedited turnaround.

# Purchase orders

Once you are ready to proceed, please include the following with your purchase order:

- Ameron quote number
- Ship-to address
- Approved drawing at time of PO if applicable
- Call ahead on-site contact

---

**Submit purchase orders to:**  
**[AmeronTelecomOrders@arcosa.com](mailto:AmeronTelecomOrders@arcosa.com)**

## Order release

- Approved drawings are required to release the order to production. By working with us prior to the order to finalize your design, you can skip the 10-day drawing creation time.
- Once the drawing is approved and the order is booked, it typically takes about 4 business days to provide a ship date.
- Please note any markings or special requests at the time of order.

## Don't forget!

- Request anchor bolt pre-shipment at time of order. If shipping to a different location, please provide address and contact.
- Paper anchor bolt setting templates provided upon request.

# Contact us

We stand ready to support you at any time.

For your convenience, department emails are listed below. You may also email [Ameron@arcosa.com](mailto:Ameron@arcosa.com), and one of our team members will connect with you shortly.
